

Access Consumers Directly Via Their Cell Phone

Enversa's Mobile marketing and messaging division makes mobile marketing accessible, simple-to-use and quick to implement. We provide fully managed mobile services and self-serve products that deliver effective mobile marketing which meets or exceeds performance metrics.

There are now nearly 275m wireless subscribers in the US. Mobile marketing provides a unique opportunity to deliver your message right into a consumer's hand. It's the only medium that is truly portable and nearly always switched on.

- Over 90% of text messages are read by recipient
- Personal, instant link between you and the consumer
- Connect with consumer at the right place, the right time.

American Idol Mobile Voting Process Flow

Enversa employs a highly skilled team who share a passion for mobile communication. By working together and focusing on the consumer experience, we provide solutions that deliver comprehensive mobile marketing campaigns.
